## 1 INVESTMENT OBJECTIVE, POLICY AND STRATEGY

### 1.1 Investment Objective

The objective of the Fund is to provide capital growth for investors while outperforming the S&P 500 index over a rolling three year timeframe.

### 1.2 Investment Policy

The investment policy of the Fund is to provide capital appreciation and income over the medium term through an actively managed, diversified portfolio of equities of companies predominantly based in the United States. The Fund aims to outperform the S&P 500 index which it uses as its benchmark, over a rolling three year time horizon. The Fund will only invest in securities listed or traded on a stock exchange or regulated market as outlined at Appendix 1 of the Prospectus. The Fund will not target any sectors or industries. The Fund aims to provide a selection of stocks from the US market as diversified across most sectors.

### 1.3 Investment Strategy

The investment strategy of the Fund will be based on a fundamental value-oriented stock picking methodology that targets stocks that are trading at discounts to their intrinsic worth.

The Fund will employ bottom-up fundamental analysis to select the stocks. This employs techniques such as company interviews, analysis of the annual reports, competitor analysis and valuation modelling of the companies.

The Fund targets undervalued stocks that are trading for less than what the company is determined to be worth. This difference between the stock price and the valuation of the relevant company is adjusted for the risk within the company. The risk is assessed through fundamental analysis of each stock. This analysis is designed to cover three major groups of company risk, which are, the business model and its competitive advantage, the management's talent and track record, and, finally, the industry trends such as the underlying growth of the industry and the volatility of that growth. The analysis produces a number score and the stocks that score best are selected for investment by the Fund as these are deemed to be the best opportunities.

The Fund's investment strategy is size agnostic and there will be a mix of capitalisation sizes of stocks, however the Fund will typically skew towards larger cap stocks.

The Fund will invest at least 80% of its assets in equities and equity like securities such as preferred stock or American Depository Receipts (ADRs) listed in the United States.

### 1.4 Cash/cash equivalents

For cash management purposes, the Fund may also hold up to 10% in ancillary liquid assets such as cash and cash equivalents (including but not limited to commercial paper, certificates of deposit and treasury bills). G10 Capital Limited (the "**Investment Manager**") uses its discretion as to when to invest in these asset classes, based on conditions in equity markets and will do so with the aim of reducing the effects of the volatility of equity markets on the Fund's portfolio and preserving the capital of the Fund.

### 1.5 Leverage

The Fund will not utilise financial derivative instruments and will therefore not be leveraged.

## 2 **MINIMUM VIABLE SIZE**

The Minimum Fund Size is \$20 million which is proposed to be reached within two years following the first issue of Shares in the Fund. Should the Fund not achieve this size within this period the Directors may exercise their discretion to terminate and liquidate the Fund, and return the net proceeds to investors as described in the "Termination of Funds" section of the Prospectus.

## 3 **PROFILE OF A TYPICAL INVESTOR**

The Fund is suitable for investors who are seeking capital growth over a 3 to 5 year horizon, but who are willing to tolerate medium to high risks due to the potentially volatile nature of the investments.

## 4 **INVESTMENT RESTRICTIONS**

The general investment restrictions set out under the heading Investment Restrictions in the Prospectus are deemed to apply at the time of purchase of the Investments. If such limits are exceeded for reasons beyond the control of the ICAV, or as a result of the exercise of subscription rights, the ICAV must adopt, as a priority objective, the remedying of the situation, taking due account of the interests of Shareholders.

## 5 **BORROWING**

The Fund may temporarily borrow monies from time to time for temporary liquidity purposes, with borrowings permissible up to a maximum of 10% of Net Asset Value of the Fund.

## 6 **EFFICIENT PORTFOLIO MANAGEMENT**

Further information on efficient portfolio management is contained in the main body of the Prospectus under the heading "Use of Financial Derivative Instruments and Efficient Portfolio Management". The Fund does not currently utilise financial derivative instruments (**FDI**). A risk management process will be submitted in respect of the Fund in accordance with the Central Bank's requirements prior to the Fund engaging in any FDI.

## 7 **RISK FACTORS**

The general risk factors set out under the heading **RISK FACTORS** section of the Prospectus apply to the Fund. These risk factors are not purported to be exhaustive and potential investors should review the Prospectus and this Supplement carefully and consult with their professional advisers before making a subscription request for Shares. The investments of the Fund may be subject to market fluctuations, currency fluctuations, emerging markets risks, custody and settlement risks, registration risk and foreign exposure risk. In addition, the following risk factors apply to the Fund:

### 7.1 **General Risk**

The net asset value of the Fund and investment return will fluctuate based upon changes in the value of its portfolio securities. The market value of a security may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price originally paid for it, or less than it was worth at an earlier time. Market risk may affect a single issuer, industry, sector of the economy or the market as a whole. U.S. and international markets have experienced, and may continue to experience, volatility, which may increase risks associated with an investment in the Fund. The market value of securities in which the Fund invests is based upon the market's perception of value and is not necessarily an objective measure of the securities' value. In some cases, for example, the stock prices of

individual companies have been negatively affected even though there may be little or no apparent degradation in the financial condition or prospects of the issuers. Similarly, the debt markets have experienced substantially lower valuations, reduced liquidity, price volatility, credit downgrades, increased likelihood of default, and valuation difficulties. As a result of this significant volatility, many of the following risks associated with an investment in the Fund may be increased. Continuing market volatility may have adverse effects on the Fund.

## **7.2 Objective Risk**

There can be no assurance that the Fund will achieve its investment objective. An investor should consider his personal tolerance for an investment based upon global equity securities before investing in the Fund.

## **7.3 Management Risk**

The ability of the Fund to meet its investment objective is directly related to the Investment Manager's investment strategies for the Fund. The value of your investment in the Fund may vary with the effectiveness of the Investment Manager's research, analysis and asset allocation among portfolio securities. If the Investment Manager's investment strategies do not produce the expected results, the value of your investment could be diminished or even lost entirely and the Fund could underperform against other funds with similar investment objectives.

## **7.4 Concentration Risk**

The Fund may have a relatively high percentage of assets in a single or small number of issuers and may have fewer holdings than other funds. As a result, a decline in the value of an investment in a single issuer could cause the Fund's overall value to decline to a greater degree than if the Fund held a more diverse portfolio.

## **7.5 Equities and Securities Risk**

As the Fund will invest primarily in equity securities, it may be more volatile than a fund that invests in fixed income securities, but may also offer greater potential for growth. The value of the Fund's underlying investments may fluctuate in response to activities and results of individual companies, as well as in connection with general market conditions.

There is a risk that the stock price of one or more companies comprised within the assets of the Fund will fall or will fail to rise.

## **7.6 Large Cap Company Risk**

The Fund's investments in larger, more established companies are subject to the risk that larger companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion. Larger, more established companies may be unable to respond quickly to new competitive challenges, such as changes in consumer tastes or innovative smaller competitors, potentially resulting in lower markets for their common stock.

## **7.7 Mid Cap Companies Risk**

The mid cap companies in which the Fund invests may not have the management experience, financial resources, product diversification and competitive strengths of large cap companies. Therefore, these securities may be more volatile and less liquid than the securities of larger, more established companies. Mid cap company stocks may also be bought and sold less often and in smaller amounts than larger company stocks. Because of this, if the Investment Manager wants to sell a large quantity of a mid-cap company stock, it may have to sell at a

lower price than it might prefer, or it may have to sell in smaller than desired quantities over a period of time. Analysts and other investors may follow these companies less actively and therefore information about these companies may not be as readily available as that for large-cap companies.

#### **7.8 Foreign Investment Risk**

As the Fund may invest in global equity securities, there is a risk of currency fluctuations, economic or financial insolvency, lack of timely or reliable financial information, possible imposition of foreign withholding taxes or unfavourable political, economic or legal developments.

#### **7.9 Foreign Exchange Risk**

Changes in rates of exchange may have an adverse effect on the Net Asset Value of the Fund. In addition a change in foreign currency exchange rates may adversely affect cash flows or income from the Fund's US Dollar denominated investments. Foreign exchange investment strategies that may be employed to manage such risks might not be successful.

#### **7.10 ADR Risk**

ADRs are generally subject to the same risks as the foreign securities because their values depend on the performance of the underlying foreign securities. ADRs may be purchased through "sponsored" or "unsponsored" facilities. A sponsored facility is established jointly by the issuer of the underlying security and a depositary, whereas a depositary may establish an unsponsored facility without participation by the issuer of the depositary security. Holders of unsponsored ADRs generally bear all the costs of such ADRs, and the issuers of unsponsored ADRs frequently are under no obligation to distribute shareholder communications received from the company that issues the underlying foreign securities or to pass through voting rights to the holders of the ADRs. As a result, there may not be a correlation between such information and the market values of unsponsored ADRs.

#### **7.11 Conflict of Interest Risk**

The ICAV will rely on the Investment Manager in implementing its investment strategies. The Directors have determined the investment policies of the Fund as set out herein and the Investment Manager will monitor the performance of such investments on an on-going basis. Investors must rely on the judgement of the Directors in determining to invest in the manner set out herein. The Investment Manager and its principals and affiliates will devote a portion of their business time to the ICAV's business. In addition, where valuations are provided by the Investment Manager there is a possible conflict of interest where their fees are based on or affected by the Net Asset Value of the Fund. Any conflicts of interest will be resolved fairly.

#### **7.12 Default of Service Provider**

The Fund relies on services provided by a number of third parties. The bankruptcy or liquidation of any such third parties, including the Investment Manager, the Administrator or the Depositary may have an adverse impact on the performance of the Fund and its Net Asset Value.

#### **7.13 Limited Disposal Rights Risk**

There will be no secondary market for Shares of the Fund and transfers of Shares are only permitted to those persons who satisfy the criteria for permitted shareholders. Consequently, investors may be able to dispose of their Shares only by requesting the Fund to repurchase their Shares on a Dealing Day.

## 7.14 Taxation Risk

A risk exists that the tax authorities in countries in which the Fund invests may, where relevant, not be prepared to permit persons in their jurisdictions to pay interest to the Fund (or its subsidiary if any is used) without the imposition of withholding tax in that foreign jurisdiction. Any such withholding tax will impinge upon the return payable by the Fund to investors.

## 7.15 Valuations of Net Asset Value Risk

The valuation of the Fund's assets obtained for the purpose of calculating Net Asset Value may not be reflected in the prices at which such assets are sold. For details of the valuation of assets, please see the section in the Prospectus headed "**Valuation of Assets**".

## 7.16 Lack of Operating History Risk

The Fund has no operating history. There can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Directors may determine to liquidate the Fund. Liquidation of the Fund can be initiated by the Directors if it determines it is in the best interest of shareholders. The timing of any Fund liquidation may not be favourable to certain individual shareholders.

## 8 DIVIDEND POLICY

Details of dividends payable in respect of each Share Class are outlined in section 9 below.

Such dividends shall be paid to Shareholders in accordance with the terms of the Prospectus as set out in the section entitled “Dividend Policy”.

The Directors reserve the right to make additional Classes of Shares available at their discretion and in accordance with the requirements of the Central Bank. In relation to the Classes of a Fund which are not designated in the Base Currency, a currency conversion will take place on subscriptions, redemptions, switches and distributions at prevailing exchange rates. Accordingly, any Class of Shares that is not designated in the Base Currency of a Fund will have an exposure to possible adverse currency fluctuations and it is not the intention of the Company to use hedging techniques to protect against such currency risk. Investors should be aware that this may substantially limit investors from benefiting if the Base Currency of such Fund depreciates against the currencies in which the assets of a Fund are denominated

### **Initial Offer Period**

The Initial Offer Period for all of the Share Classes listed above will begin on 27 November 2017 and will conclude on 25 May 2018. The Initial Offer Period may be shortened or extended by the Directors. The Central Bank will be notified of any shortening or extension in accordance with the requirements of the Central Bank.

### **Minimum Amounts**

There is no minimum initial investment amount, minimum additional investment amount or minimum holding amount applicable for any Share Class.

### **Business Day**

Any day other than a Saturday or Sunday on which commercial banks in Ireland and United Kingdom (and in any other financial centre that the Directors may determine, and notify in advance to Shareholders, to be relevant for the operations of the Fund) are open for normal banking business. If the Business Day is changed to consider any other financial centres, other than on an exceptional basis, full details of the new Business Day will be disclosed in an updated Supplement.

### **Dealing Day**

Every Business Day and such additional Business Day or Business Days as the Directors may determine, and notify in advance to Shareholders.

### **Dealing Deadline**

The Dealing Deadline is 4:30 p.m. (Irish time) on the Dealing Day or such other times as the Directors may determine and notify in advance to Shareholders. The Directors may agree to accept applications after the Dealing Deadline, only in exceptional circumstances, provided such applications are received before the close of business of the relevant market which closes first on the relevant Dealing Day.

### **Valuation Point**

The Valuation Point shall be the close of business in the market that closes first on the relevant Dealing Day and in any event shall be after the Dealing Deadline.

### **Settlement Date**

Subscription monies should be paid to the Subscription/Redemptions Account specified in the Application Form (or such other account specified by the Administrator) so as to be received no later than the third Business Day following the Dealing Day or such later time as the directors may agree from time to time.

Monies in the Subscription/Redemptions Account will become the property of the Fund upon receipt and during the period between receipt of subscription monies and the Dealing Day on which Shares are issued, investors will be treated as unsecured creditors of the Fund. Investors' attention is drawn to the risk factor under the heading "*Subscriptions/Redemptions Account Risk*" as set out in the Addendum dated 22 June 2016.

If payment in full and/or a properly completed Application Form have not been received by the relevant times stipulated above, the application may be refused, or in the event of non-clearance of funds, the allotment of Shares made in respect of such application may, at the discretion of the Directors, be cancelled, or, alternatively, the Directors may treat the application as an application for such number of Shares as may be purchased with such payment on the Dealing Day next following receipt of payment in full of cleared funds.

Payment of redemption monies will normally be made by electronic transfer to the account of record of the redeeming Shareholder within five (5) Business Days of the relevant Dealing Day or such later time as the Directors may from time to time permit but in any event payment will not exceed ten (10) Business Days from the Dealing Deadline.

The Administrator may refuse to pay or delay payment of redemption proceeds where the requisite information for verification purposes has not been produced by a Shareholder. During this time, any such redemption proceeds will be held in the Subscriptions/Redemptions Account and shall remain an asset of the Fund. During this period, the Shareholder will rank as an unsecured creditor of the Fund until such time as the Administrator is satisfied that its anti-money-laundering procedures have been fully complied with, following which redemption proceeds will be released to the relevant Shareholder.

Accordingly, Shareholders are advised to promptly provide the ICAV or the Administrator (as appropriate) with all documentation requested to reduce the risk in this scenario.

### **Anti-Dilution Levy**

After the close of the Initial Offer Period, the Directors may, in calculating the subscription price or redemption price, when there are net subscriptions or net repurchases of Shares on a Dealing Day, adjust the subscription price or redemption price by adding or deducting (as applicable) an Anti-Dilution Levy of up to 2 % to cover the costs of acquiring or selling investments (including any dealing spreads and commissions) and to preserve the value of the Fund.

The Anti-Dilution Levy will be charged in circumstances where the Directors believe it is necessary to prevent an adverse effect on the value of the assets of the Fund and is only likely to arise if more than 10 % of the Net Asset Value of the Fund is redeemed on any one Dealing Day. Shareholders will be notified if an Anti-Dilution Levy is to be applied to their redemption on any Dealing Day and may be given the option to reduce or cancel their redemption request in order to avoid an Anti-Dilution Levy being applied. Any such Anti-Dilution Levy shall be retained for the benefit of the Fund and the Directors reserve the right to waive such Anti-Dilution Levy at any time.

### **Preliminary Charge**

Up to 3 % of the amount subscribed, payable to the Fund who may pass it on to the Investment Manager. The Preliminary Charge will apply to all investors who invest in Class A7 (USD) ACCUMULATING, Class A8 (USD) INCOME, Class C7 (CHF) ACCUMULATING, Class C8 (CHF) INCOME, Class D7 (EUR) ACCUMULATING and Class D8 (EUR) INCOME as outlined in section 12 below. The Directors may waive the Preliminary Charge in whole or in part.

### **How to Subscribe For Shares**

Requests for the subscription for Shares should be made in accordance with the provisions set out in the section entitled "*SHARE DEALINGS - SUBSCRIPTION FOR SHARES*" in the Prospectus.

### **How to Repurchase Shares**

Requests for the repurchase of shares should be made in accordance with the provisions set out in the section entitled "*SHARE DEALINGS - REPURCHASE OF SHARES*" in the Prospectus. All requests for the redemption of Shares must be received by the Dealing Deadline in the manner set out in the Prospectus. Redemption monies will normally be paid within five (5) Business Days of the relevant Dealing Day.

### **Restrictions on Subscriptions**

All subscriptions are at the discretion of the Directors of the ICAV.

## **10 MANAGEMENT**

The Investment Manager of the Fund is G10 Capital Limited a limited liability partnership incorporated on 18 September 2014 in the UK under the Companies Act 2006 with registered number 09224491 and is authorised by the Financial Conduct Authority (the "**FCA**") in the conduct of its regulated business (including the management of AIFs).
