

Low Duration Credit Fund

Monthly Factsheet August 2024

Summary of Objective¹

The investment objective of the Fund is to provide investors with returns in excess of cash deposit rates (being overnight or short-term fixed deposit rates that are typically available at Irish Relevant Institutions) over a three year investment horizon.

The Fund intends to achieve its investment objective through exposure to third party funds managing a portfolio of globally diversified credit. We may also make small allocations to high yield within the portfolio based on our assessment of the market environment at that time. We will manage the portfolio through the use of both active credit managers and passive ETFs (Exchange Traded Funds) or index funds.
